Art Unit:

Claims 5-14 are presented for examination.

The amendments and remarks filed on May 18, 2001 have been received and entered.

Claims 5-14 are rejected under 35 U.S.C. 103 as being unpatentable over Margolis for the reasons set forth on page 2 of the office action of February 14, 2001.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the use of retinoid agonists for the treatment of bone conditions other than osteoporosis. The allegation is not well taken, considering that claims 8-11 are directed to the treatment of osteoporosis, claims 5-7 and 12-14 are directed to stimulating the healing of a bone fracture which can be done the same way as treating osteoporosis by increasing mineral deposits. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 8-11 are properly rejected under 35 U.S.C. 103.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit:

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
